This animation demonstrates the behavior of a typical neuron at its resting membrane potential, and when it reaches an action potential, messages start as electrical signals traveling rapidly. In this video, I discuss the neuron, briefly touching on all of the parts of a neuron including the dendrites, soma, and axon. If sodium ions don't travel from one end of the neuron to the other, what actually moves during an action potential? In this video, I cover the basics of the action potential beginning with an explanation of membrane potential and how it sets the stage for an action potential.
